Kitchen Sampler was worked in cross stitch over two threads using two strands of DMC stranded cotton on 32 count white Belfast Linen 43 cm (17") square and was custom framed.

Please note that as dye lots vary quite considerably with the dark blues, purchase all of your thread for this project from the same dye lot. Approximately three skeins of Dark Blue and two skeins of Darkest Blue are needed for this design.

Pot Holder, see back cover, was worked in cross stitch using three strands of Anchor stranded cotton on a purchased white 14 count Aida pot holder.

As you can see from the pot holder, the individual motifs are ideal for decorating articles for the kitchen, or even on a card for a housewarming.
